Jim –

We need to change the time for the call with Excelsior on 1/24. It is currently scheduled from 9 – 11 am but we are trying to get it changed to 1 – 3 pm (same day 1/24/2017). Are you available if we change the time of the call?

Thanks.

Hi Kate,

Nancy and I conferred on December 28 regarding the responses to the major NOD comments and the EPA preferred format for the Cadmus draft comments on the responses. I indicated that we may need more time to complete the review and draft the comments beyond the target week of January 9, but should be able to complete and submit our comments by the week of January 16. We will be prepared to participate in the conference call with Excelsior on January 24.

EPA will provide Cadmus staff with a hard copy of the responses to comments on the modeling discussion in Attachment A-2 of the application and a copy of the CD containing the responses to all EPA comments in the NOD.

Ex. 5 - Deliberative Process

Nancy – does this capture the key elements of our conversation?

Thanks,

Jim
